## **A model to promote healing and connection with our children**

Parenting has unique demands and challenges. Dr. Karyn Purvis co-founder of Institute of Child Development coined the phrase “children from hard places” to describe children who have experienced abuse, neglect, abandonment and/or trauma in early development. Their survival behaviors can be confusing, frustrating and difficult to manage even for the most patient and loving parents. Join with others who have/are raising kids from hard places to strengthen our power to connect with them and each other.

Light refreshments and child care provided (RSVPs required for child care)
